VIRTUAL GUARDIAN

GRCx Powered by Onspring

Automated.
Integrated.
Uncomplicated.

Say hello to your GRCx factor.

An unbelievably easy and smart solution for every governance risk, and compliance situation, designed with extra power and control.

What is GRCx?

Virtual Guardian GRCx is a fully supported managed or co-managed, cloud-based platform that offers a cost-effective, user-friendly operation that stands well above other solutions. Our easy-to-run platform lets you control data, workflow, automation, and reporting without the headache of creating custom code.

Simplifying is our superpower.

Elevate your GRC program to succeed in any area of focus with our managed or co-managed service offerings.

We customize the GRCx platform to meet the specific area of focus your business needs. At Virtual Guardian, that starts by listening and learning who you are. Then, we create the perfectly personalized program that allows you to automate and integrate virtually any process. We identify gaps, evaluate risks, and locate areas of opportunity for operational improvements.

It's why Virtual Guardian GRCx is the choice for any size business, from startup to Fortune 500 companies, including:

- ▶ Healthcare

- ▶ Financial

- ▶ Insurance

- ▶ Retail

- ▶ Manufacturing industries

Let's give you that X factor.

VENDOR RISK MANAGEMENT
Reduce vendor risk to your operation with easy-to-manage tiered vendor categories and holistic third-party knowledge of risks.

COMPLIANCE
Stay audit ready and achieve regulatory compliance with a simplified process that saves you time and money by uncomplicating the complicated.

RISK MANAGEMENT
Get a holistic view of your risk landscape and be risk ready with easily repeatable assessments that allow you to make risk-based decisions.

BUSINESS CONTINUITY
Be prepared for any disaster with a readiness plan that helps ensure less downtime and a better outcome, even when under significant stress.

AUDIT MANAGEMENT
Save time and money by increasing efficiency with an improved audit process that simplifies workflow and communication.

INCIDENT MANAGEMENT
Create a playbook to define your process and respond to incidents with organizational readiness that gives you the flexibility to correct quickly.

FRAMEWORK ASSESSMENTS
Assess your program within the framework of your choice (NIST CSF, FFIEC, ISO, RMF, and others) to identify gaps and provide a path forward.

API INTEGRATION
Automate your process while integrating enriched data to make concise business decisions.

CUSTOM PROCESS AUTOMATION
Digitally transform your business process with a program to identify efficiencies in your operation to save your organization time and money.

If you don't see what you're looking for here, ask us. We also build custom-use cases.

Virtual Guardian is the first Authorized Managed Service Provider from Onspring.

Our solutions start by listening.

Virtual Guardian listens, learns, and delivers tightly integrated solutions that achieve cybersecurity, compliance, and operational goals. We act as a single point of contact that melds existing assets with a repertoire of scalable solutions. Our methodology accounts for all steps of the process to save time and drive efficiency.
